PRESENTATION

Developer with over 5 years of experience and extensive proficiency in the .NET ecosystem, including ASP.NET, ASP.NET Core, MVC, Entity Framework, C#, and Xamarin Forms. Specialized in problem-solving through research and database management, with a strong focus on SQL Server for database design, optimization, and querying. My ability to quickly adapt to new challenges and technologies has allowed me to excel in agile skill and knowledge acquisition, driving innovation and solving complex problems.

EXPERIENCE

LOS ANDES TARJETA PREPAGO S.A. | MOBILE DEVELOPER

Oct 2022 - Jul 2023 | Los Andes Tarjeta Prepago S.A.

- Spearheaded the development of new features for a mobile app that functioned as a digital wallet with a prepaid card. Ensured adherence to best practices and meticulously documented the code to enhance maintainability and facilitate collaboration among the development team.
- Utilized Xamarin Forms (C#) to create a seamless mobile experience for both iOS and Android platforms.
- Played a crucial role in providing accurate estimations for requested features and used Jira in conjunction with agile methodologies to streamline project management and development processes.
- Collaborated in the implementation of GitFlow with GitLab for version control, which significantly contributed to an efficient and organized code management system within the development team.

BELL TECHNOLOGIES S.A. | DEVELOPER ENGINEER

Jul 2022 - Oct 2022

- Developed software for self-service totems using .NET Framework, K3A, JavaScript, HTML, and CSS.
- Followed agile methodology for efficient development processes with Azure DevOps, including task estimation and meticulous development planning.
- Collaborated with cross-functional teams to gather requirements and implement features.

EME INVERSIONES LTDA | SYSTEM DEVELOPMENT ASSISTANT

Apr 2018 - Jul 2022

- Played a key role in the development and maintenance of proprietary software using .NET Framework 4.X, .NET MVC, .NET Core, and SQL Server. This included database structure configuration, query optimization, and ensuring data security and integrity.
- Led the development of a web application that allowed subcontracted workers to digitally sign salary statements, contracts, and annexes, improving efficiency and reducing paperwork.
- Spearheaded the creation of a custom web application similar to Moodle for the training area, providing students with an enhanced learning experience.
- Collaborated in the implementation of Git/GitHub version control for the software development team, enhancing code management and collaboration.
- Designed and developed a Xamarin Forms mobile app with MVVM architecture and a RESTful API to streamline processes for subcontracted workers, resulting in increased productivity.

EDUCATION

SANTIAGO DE CHILE UNIVERSITY

* COMPUTER SCIENCE ENGINEERING

* BACHELOR'S IN APPLIED

ENGINEERING

Aug 2021

SKILLS

SOFT SKILLS

Fast Learner • Critical thinker
Problem Solver •
Strong Attention to Detail •
Organized • Effective
Prioritization •
Team Player • Excellent
Interpersonal Skills •
Self-Reliant

PROGRAMMING

Proficient:

C# • SQL

Experienced:

PHP • Javascript

Familiar:

Java • C • Python

LIBRARIES/Frameworks

ASP.NET Core • MVC •
ASP.NET • .NET WebAPI •
Xamarin Forms • Laravel

TOOLS/PLATFORMS

Git • GitFlow • AzureDevops •
Jira • GitLab • Confluence •
Postman
